Highlight of My Senior Year

Reflecting on my stressful but bitter-sweet senior year, I felt a series of unforgettable events flooding into my mind, among which the Basketball Competition was the highlight experience.

With the purpose of relieving students' pressure, our school held basketball match, which I excitedly signed up for as a big fan of basketball. Before the competition, I practiced with my teammates after school. Sweat soaking my sport jacket, I ran and jumped in the court, feeling the breeze which blew away concerns. I also miss the moment when my teammates and I cooperated and strived for triumph during the match. At the last moment, they passed the ball to me and I shot at the basket. We won! We became the champion!

Never will I forget this highlight experience in my life because it not only reminds me that we could savor the happy moments even in difficult time but also lets me feel the importance of friendship and cooperation.

参考范文：

When it stopped snowing, Jonas grabbed his shovel and got to work. He started at Mr. Travers' house and shoveled the sidewalks. He bent at the knees, lifted up the snow and threw it aside. After completing the first task, Jonas received five dollars, for which he beamed with joy. He continued the remaining tasks in the same order he talked to his neighbors. Half of the work done, he felt muscles sore and legs weak, with his face turning red like apple because of the bone-chilling wind. However, the thought of giving up gave way to the determination for a new pair of baseball gloves. The moment he dreamt about the shining trophy, Jonas summoned up his strength and sped up his work. Not until hours later did Jonas accomplish his work and earn forty dollars in total.

Tired but happy, Jonas looked at the forty dollars earned from his work. Humming and skipping like a bird, Jonas went to the store and bought the long-desired gloves. At sight of the new gloves, mom was surprised and asked about his job. Jonas explained his first job proudly. Having known about the truth, mom stroked Jonas head and gave him a thumb-up, praising, "My son has grown up and become more independent!" With the new gloves worn on hands, Jonas gained more motivation and kept on practicing. Three months later, he became the winner and won the trophy. It was through the experience that Jonas realized if we want to obtain something desirable we need to spare our effort to earn by ourselves.
